TO: City Managers, Administrators and Recorders

FROM: Ken Strobeck, Executive Director, League of Oregon Cities

RE: Measure 37 Claims

Your city will be receiving a letter from LOC, AOC and the Governor's Office asking that you forward a copy to the League of any Measure 37 claims that your city receives, in order to facilitate coordination with the state.

The claims that we have seen so far demonstrate the need for all the various levels of government affected by Measure 37 to coordinate with information sharing. To that end, LOC and AOC will share information with the state as to any claims that may involve a state land use regulation. Likewise, the state will provide cities and counties with copies of claim information on all claims filed on property within the appropriate jurisdictions.

Additionally, cities should instruct claimants that they should also file a claim with the state if the claim appears to involve a state land use regulation. Forms and information are available at the state's website: [www.oregon.gov/DAS/Risk/M37.shtml](http://www.oregon.gov/DAS/Risk/M37.shtml).

**Please send, fax or email a copy of any Measure 37 claims that you have received to Linda Ludwig at the League office, ([lludwig@orcities.org](mailto:lludwig@orcities.org), fax: 503/399-4863; PO Box 928, Salem, OR 97308) and continue to do so on an on-going basis.**
